## Visitors During Your Stay

Whilst we are still going through this current pandemic we would ask that visitors to the cottage during your stay be at the express permission from ourselves. We are sure that you will understand we are still in the midst of a very fragile time. Our priorities must be the safety of you, all of our guests and our staff. In order to remain open and provide a haven in which to relax and enjoy time away this is paramount to keeping our little pocket of Yorkshire safe for everyone.

If prior consent is given and visits do take place we need names, addresses and mobile numbers of all visitors in order for us to keep on record in case of the need to track and trace. At no point are visitors allowed to use any of the cottage facilities - the BBQ House, Outdoor Hot Tub and Tennis Court are solely for use by cottage guests. This remains in place year round regardless of the situation we currently find ourselves in.

Please at all times respect any other guests and under no circumstances are dogs that are not staying in the cottages allowed on site.
